vitness once more.

Q.—Did you increase values? A.—Slightly.
Q.—Increase as much as 100 per cent in any case?
A.—No, I don't think I have. I had increased the property in cases where I thought the property was low, increased them to what I thought would be its fair market value.

Q.-You made regular reports, didn't you! A. Q.-And those reports contained one column

showing the assessment for last year? A.-Yes.
Q.-And then you put in the assessment for this Q.-Either continuing the old assessment, either A.-Yes.

Q.-How many months? A.-About three months, Q.-About innety days? A.-About that, including Sundays

Q.-And you examined 8,745 pieces? A.-Yes, sir. Q.-That is an average of one hundred pieces a day? A.-Oh, no; some of them are hundred-acre

er cent for that answer.

Mr. Moss-I direct the attention of the committee to the fact that in many of these papers where an answer is right but some figures in the answer are wrong a portion of the mark is given.

Q.-On the fourth question, "On a lot of land 25 100, there is a house running back 60 feet with an extension 180 by 25. What percentage of the area of the lot is covered by the house?" your answer is 75 1-3, for which you received a mark of

The mark given there is nothing. The mark for the sixth question is 8. And for the seventh question is a failure. The seventh question is, "If the tax raised on a certain piece of property is SST15, and the tax rate is 1.75, what is the assessed value of the property?" The mark is a failure. The general paper is marked 56 by one examiner, 60 by the other. The writing is marked 59 per cent by each examiner, and experience 55 per cent by each examiner. experience 85 per cent by each examiner.

The Chairman-Mr. Moss, how much longe you be with this witness?

Mr. Moss-I can finish with him in a very few

minutes; then he needn't come back to-morrow. Q .- Do you or did you report to the Chief Deputy in Brooklyn? A.—Queens.
Q.—Regularly, did you? A.—Yes.

DID NOT REPORT TO MANHATTAN.

Q.-1 notice on this page (referring to book), Mr. Deputy, between Seventh and Eighth aves., block No. 45, generally you decrease values. Why was that done? A .- The property, in my opinion, was

From information and from general knowledge that

Q.-What general knowledge did you have of property in that neighborhood? A.-Knowledge and information received before I started to assess. Q.—What kind of information? A.—Information from owners, from various people interested in property in that section and various sections.

Q.-Did you ever know owners to overestimate the value? A.-No. I took their information with a grain of salt.

Q .- Then, what was the grain of salt? A .- In some Q.—Then, what was the grain of sair A.—A sea cases they probably did not say what they meant, and in some cases they did say what they meant. Q.—What was the other basis for your judgment in reducing those values? A.—My judgment, to the best of my ability, the property was assessed too high in some cases. That was my judgment.

Q.—The general complaint has been that the prop-erty was assessed too low. How do you account for an assessment too high? A .- In this case the property was assessed too high. I know that,

Q.-How do you know that? A.-From my knowl-Q .- What is your knowledge-what does it con-

sist of? A .- As a real estate man. Q .- You had no experience over there? A .- I had

Q.—But knowledge in general that a New-York broker has does not tell him what the values of property in Queens County are. A .- It tells him in

Q.—In a manner? A.—Yes, sir, Q.—Do you know who assessed it in 1897? A.—No.

I know who did it in 1899. Q.-There is the figure you went by-the

ment in 1897? A.—That did not bother me at all, Q.—You paid no attention to it? A.—No, sir. Q.-What was it in there for? A.-It was in there when I got the book.

RELIED ON HIS OWN JUDGMENT.

Q.-There was a man who had previously gone over the ground, and who was, presumably, familiar with it, and who made that assessment. Upon what theory did you entirely disregard the official work of a man that has gone over the ground in that way? A.-From my own judgment and from information that I received I know that this propwas especially too high in this neighborhood,

information that I received I know that this property was especially too high in this neighborhood, and I know it from sales.

Q.—Where are the sales in that neighborhood from which you know it? A.—They are not in this book. They are in the other book.

Q.—They have been made since you made the valuation? A.—Some of them.

Q.—Here you have one piece of property increased from \$2.500 to \$15.300, and the next piece of property is increased from \$2.500 to \$1.800, and the next piece of property is increased from \$9.00 to \$7.7 A.—Yes; it was corner property. The assessment there is fair and equal in its value. That is what the property will sell for to-day.

Q.—Here we have the next section, and it stays just the same, \$1.500? A.—Yes.

Q.—And we come to Tenth and Eleventh sts., and you raise it \$350 to \$4.900, and from \$1.50 to \$1.900, and there is one \$900 which keeps the same figure—\$500, and there is another one of \$800 which is raised to \$1.000? A.—Yes, sir.

Q.—Here on this block you raise it from \$1.200 to \$1.400, and the very next piece of property is dropped from \$1.500 to \$1.300, and the hext piece of property is increased from \$1.200 to \$1.400. Upon what basis do you do that? A.—These houses are all built alike. This house here dindicating) is a poorer house, and it has been unoccupied for the last two or three years. The value of this house to-day is not within \$1.000 of what these houses are—these other houses—the market value of it.

Q.—But your general plan was to increase them all \$1.400? A.—Yes, sir; that is their value to-day, in

market value of it.

Q.—But your general plan was to increase them all \$1,60? A.—Yes, sir; that is their value to-day, in my judgment.

Q.—You say you have skipped around, increasing and decreasing, but the general tendency was to increase somewhat? A.—According to their value, Q.—Through the book generally you have increased? A.—Yes.

INCREASED ABOUT \$200,000. Q.—What is the net result of the book increase?

Q.—Two hundred thousand dollars increase in this district? A.—Yes.
Q.—Well, I am thankful for that bit of information from you. And that is based entirely on your
judgment? A.—Yes, sir, on my best information
and knowledge which I have in the real estate
oustness for years past.
Q.—You have to do measuring to get at these
raives? A.—Only of the houses.
Q.—You have to know what the plots are in size.
A.—The map shows that.
Q.—You have to figure by the maps? A.—The
maps are supposed to be correct; yes, sir.
Q.—With a map before you, you do the figuring?
L.—Yes, sir.—Adventure how much of a lot is.

If he has a house forty leet deep, that thing.

Q.—And if he has a house thirty feet deep, that is another thing? A.—Yes, sir.

Q.—Do you include this ten feet or the five feet of the lot covered difference between the portion of the lot covered the house in your calculations? A.—Yes. We by the house in your calculate all that. We see the lot have not time to calculate all that. We see the lot and we estimate how much of the lot the house and we estimate how much of the lot the house.

The Chairman-Well, you are not a citizen, yo are a public official.

The Witness-I will answer any question that pertains to my public and official duties.

The Chairman—The committee thinks it material

under your employment as an official in a depart ment in the city government.

The Witness-I think that an official has as many rights as a private individual. If there is any charge against me I am willing to answer

the charge. There is no charge against me. STILL REFUSES TO ANSWER. The Chairman-We don't care to get your views as to your rights as a citizen; it is for the com-mittee to pass upon the relevancy of the question.

Mr. Moss-Perhaps the witness does not understand that the committee is directed to inquire not only into the offices and officers, but the influences controlling them. The Chairman-The resolution under which this

committee is holding its sessions directs us to inquire, among other things, into the influences affecting and controlling and relating to the ous departments of the city government and the officials and employes therein. Under that part of the resolution we think this is a material question to be answered by you, you being a city employe.

The Witness-I decline to answer the question.

The Witness—I decline to answer the question.

Mr. Moss—That is all.

Mr. Hoffman—One question. Have your duties increased since the consolidation of the various boroughs into one city? A.—The area of the city since I have taken hold of the work has been multiplied practically by twenty.

Q.—But since the last increase, have your duties increased? A.—Enormously.

Mr. Moss—Have you any more subordinates? A.—I had during the last year between fifty and sixty assistants. At present I have twenty-eight.

Q.—But your maps are practically made up now? A.—The maps are not all made up. There are still—it would take some time to go into the details. I would like to inform the committee of what the details are, but it would take too long. The maps for Newtown and Flushing are not completed. The law says, in addition to making maps, I am to make such alterations on the maps as occur from time to time. The alterations during the past year affected between 20,000 and 25,000 lots.

Q.—Why were your assistants reduced from fifty to twenty-eight? A.—Because last year we had about one hundred and seventy-one square miles of maps to make, and this year we have only from twenty to twenty-five, the new maps.

At 4.25 the chairman announced an adjournment until this morning at 10.29 o'clock, and directed all witnesses under subpœna to appear at that time.

Q.—What is your present salary.

Q.—Wasn't your salary originally \$2,500? A.—No.
Q.—You were appointed at \$4,000? A.—No. I was
appointed in the department at \$2,700 in 1889. The
duties were increased by acts of the Legislature in
the several years since. Part of my salary is paid out
of an act called the Block Tax Assessment Map
act, which calls for the making of maps not only
for the Tax Department, but also for the Bureau
of Arrears and the Finance Department, and for
the Bureau of Water Register in the Department
of Public Works. At that time, for making those
maps—and the number of those maps numbers
now, I think, over one hundred and fifty volumes—
and for keeping them corrected, I received annually WITH SOUND RELIGIOUS TRAINING. School year opens September 11, 1890.
